

Precision Testing Project

THIRD WEBINAR

TITLE: "Best practices /state-of-the-art in precision testing in colorectal cancer"

Co-chairs:

S. Gijssels, BE

E. Van Cutsem, BE

Welcome and introduction – S. Gijssels, BE

1st presentation: "The landscape of precision therapy and translational research in metastatic CRC: recommendations and implications of biomarkers" – E. Van Cutsem, BE

2nd presentation: "Molecular screening and hereditary CRC" – K. Dahan, BE

3rd presentation: "What marker for what drug?" – J. Taieb, FR

4th presentation: "Different techniques to detect circulating tumor DNA" – P. Laurent-Puig, FR

5th presentation: "Immunoscore, a new tool for CRC molecular diagnostics" – J. Galon, FR
