

Precision Testing Project

WEBINARS

Six video webinars on different topics in Precision Testing will be carried out by SPCC. The webinars will be made possible thanks to unrestricted educational grants and/or unrestricted sponsorships by Bio-Pharma companies. CME accreditation will be provided to the attendees.

Each webinar will last 1 hour approximately with the participation of Experts and Discussants renowned in the field. Each webinar will consist of:

- 1 recorded introductory video – by one of the Discussants
- recorded presentations (15/20 minutes each) – by the Experts

The recorded videos will be followed by a live discussion (1 hour approximately) between the Experts and the Discussants. Representatives from the Supporting Companies will be entitled to join the live discussion as observers.

Pre-recorded webinar and educational materials will be available on demand on [OncoCorner platform](#).

SIXTH WEBINAR

TITLE: “Rules, collaborations and harmonization to improve access to precision testing”

Discussants:

P. Presti, IT; M. Frattini, CH

Welcome and introduction (2/3 minutes video) – P. Presti, IT

Presentations (20 minutes each)

- “How to enhance collaboration between pathologists and molecular biologists” – **N. Fusco, IT**
- “The IQN Path/ECPC/EFPIA project on access and quality of biomarker tests in Europe” – **N. Normanno, IT**
- “Regulatory perspective about tests associated with drugs: what is realistic?” – **M. Paulmichl, AT**
- “Accessibility to precision testing: barriers that need to be overcome” - **M. Frattini, CH**
